Bedding and utensils for eating and drinking, must be provided by passengers; and those going to the Canadas, or Western States, must furnish their own provisions from Boston.

TRAIN & CO., of Boston, inform those who take an interest in the welfare of immigrants, that as each vessel of their splendid Line of BOSTON PACKETS, they have determined that their immigration business shall be conducted in their own name, on their own responsibility, and by themselves or agents, and not by contract.

In calling our most earnest attention to the subjoined list of the Ships which compose our Boston Line of Packets, we believe that its general reputation *as the first of American Liners* is sufficiently well known and established to save Thousands of Letters which have been sent by American Immigrants to their friends in every part of Europe, have borne ample testimony to the capital and successful passages made by those Ships, and to the superior Health, Comfort and Safety which their Passengers have hitherto enjoyed. Many of them will be recognized as vessels which have gained the very highest character, by a succession of unusual rapid passages.

These magnificent Ships are ALL AMERICAN BUILT and constructed expressly for Packets. They are all new and of the FIRST Class, being built on the most improved principles and of the best materials. They possess all the modern improvements which conduce to health and comfort, as a superior system of lighting and ventilating, the very best Provisions, and a careful medical superintendence.

The Captains have been carefully selected as first-rate sailors and men of humanity, and an experienced Surgeon is attached to each Ship, and no expense is spared to render this the best and most popular conveyance to America. As Train & Co. have made such arrangements in Liverpool as will PROTECT them in their deals from the frauds and impositions sometimes practiced there, they believe that those who pre-pay passages cannot but see the advantage of being able to engage with a Respectable House, on favorable terms, for a well known Line of Magnificent Packet Ships, and in this way avoid the disrespect, annoyance and delay which they so often experience, when they engage with Agents who are but slightly connected with transient Ships.

As a proof that their Immigration business is conducted on principles uniformly Honorable and Humane, and that they have been distinguished for the most exact fulfilment of all their engagements, we are permitted to refer to the very Rev. THEOBALD MATHEW, Cork, Ireland.

We also subjoin the following testimonial from the Right Reverend JOHN BERNARD FITZPATRICK, D. D., Bishop, Cathedral, Boston.

NOTICE TO BUSINESS MEN.

The circulation of the DAILY SENTINEL is by far the LARGEST of any daily paper published in the State; and presents greater advantages to Merchants, Mechanics and Artizans, as a medium of *Advertising*.

The *Weekly Sentinel* has now a circulation of over two thousand copies, which is constantly and rapidly increasing. Advertisements put in the Weekly at the same rates as in the Daily.

LEGISLATURE—FRIDAY. Both houses hard at work all day.

Senate passed numerous bills, and killed the Assembly tax bill by laying it on the table, after a hard half day's work in committee.

The railroads and plank roads are to be taxed at one per cent on their gross earnings by a special bill.

In Assembly hosts of bills passed, among them appropriations to the amount of 18 or 20,000 dollars, also establishing the offices of Bank Register and deputy Secretary of State—authorizing Mil. and Miss. Co. to build a branch road—relative to bridge in Milwaukee at foot of Milwaukee street—restricting sale of School Lands to actual settlers—providing for publishing the General Laws.

The emigrant agencies except that at Quebec are abolished.

Committee on School Fund Loans reported the bill list of loans and *securities*, and to publish four copies, and this was agreed to.

Adjournment of the Legislature.

Our State Legislature, *Laus Deo*, adjourns today. We trust that no possible contingency will arise requiring the re-assembling of those counterfeit Solons at Madison. Bogus "Democracy" has held undisputed sway in both Houses, and the People, as usual, have paid the penalty. In the creation of unnecessary offices; in the increase of salaries; in the amount of special legislation; in the multiplication of expenses; in open and defiant contempt of the popular will and the public interests, and in general ill-doing, we think that this Legislature has fairly surpassed all of its "illustrious predecessors." Yet it might have done worse and we think the state rather well out of a bad scrape. But may we never look upon its like again.

Third Judicial Circuit.

We learn from the *Burr Oak* of Monday last that Mr. HAND, of Portage City, has withdrawn his name as a Candidate for Judge in the Third Circuit. This leaves in the field, A. M. BLAIR, regular democratic nominee, C. H. LARRABEE, independent, and SAMUEL BAIRD, People's Candidate. The election takes place to-morrow.

BAILED.—Mr. C. Clement, editor of the Racine *Advocate*, who is one of the gentlemen arrested upon the charge of helping a fellow-being to regain his freedom, returned from Madison, Friday evening, and having given bail, in the sum of $3,000, for his appearance before the U. S. District Court in July next, was discharged from custody.

☞ The British steamship City of Glasgow, which sailed from Liverpool on the 1st inst., for Philadelphia, has not yet arrived at that port, and much anxiety is felt for her safety. She has three hundred and twenty passengers on board, and her cargo consists of about $1,000,000 worth of goods, most of which are fine silks, satins, laces, &c.

She has now been out twenty-nine days. The City of Glasgow is an iron-built propeller.

DEATH OF SERGEANT TALFOURD.—The Franklin brought the sad news of the death of the author of "Ion" and "Glencoe;" He was struck with apoplexy while delivering his charge to the grand jury at Stafford. His sudden decease will carry grief to the breast of many sincere friends and admirers on both sides of the Atlantic. The London *Times* says, "it may be said with truth of Mr. Justice Talfourd, that the only pang he ever caused to all who knew him was, by his untimely death."

PRODUCE AT KENOSHA.—The Kenosha *Tribune* has obtained from the different warehouses the amount of grain in store at that point, whence it sums up the following: Wheat 56,564; oats 71,137; barley, 6,307.

FLOURING MILL BURNT.—The Steam Flouring Mill, at Taycheedah, owned by Mr. A. L. MCCREA of this city, was totally destroyed by fire on Thursday last. The property was valued at $12,000 and insured for $10,000 in Eastern Companies.

The O. & O. R. R.

The Shiawassee Democrat gives the following evidences of the progress of the work on the Oakland and Ottowa Railroad:

The chopping and grubbing in Shiawassee county is nearly done. From Owosso to the west line of this county it is completed. From the east line of the county to the Shiawassee river the chopping and grubbing is done and the logging and clearing nearly done. From the Shiawassee river to Owosso, a distance of eight miles, the chopping and grubbing would have been done ere this, had the line been settled. It is now settled, or will be very soon, when men will be placed upon it, to chop and grub that section also. The contract for grading from here west is also being vigorously fulfilled by Mr. Quackenbush, the contractor. He has about one mile already graded from Owosso west and ready for the superstructure, and will push his work from Owosso east to this place, as soon as the line is established.—Taking all things into consideration have we not reason to take courage at the brightening prospect before us.

The Ionia Gazette says:

We notice that a force of hands have commenced work, in good earnest, on the Oakland and Ottowa Railroad, immediately east and west of this village.—The work now being done consists principally of chopping, clearing and grubbing.—More hands are wanted, and we are authorized to state that they will be set to work as fast as they come.

VINDICATED BEYOND QUESTION.—Watson of the *Milwaukee Sentinel* has been in attendance at the session of the Wisconsin Legislature for the past month or two, corresponding for his paper. In some of his letters he took occasion to criticise the appearance and manner of a fair lecturer on Temperance, Mrs. Fonda of Waukegan. That lady resents the strictures of Watson, through the columns of the Waukegan *Advocate*, and makes the following happy hit:

"My husband has laughed heartily to think my mouth did not work right to suit Mr. Watson. He thinks he stands in no danger as it regards *him*, any way; and then she "compressed her lips in so *uncomfortable* a manner"—my husband continued his laugh, for he thought they "compressed" about right to *meet another pair sometimes*."

FRAUDULENT LEGISLATION.—Repeated alterations to bills which have been passed in our Legislature, have been detected. This is done by outsiders. The bill in regard to the Dane Co. Court was so mutilated as to alter the sense intended by the Assembly. During the past week another instance of the same kind has occurred. Such scoundrelly acts deserve the severest punishment, and were the matter ferreted out, and the perpetrators discovered, it would probably rest upon those who would be the least suspected.—Such things have been done and are done every session. The memorial to Congress in regard to railroad grants, in 1852, was thus mutilated and the sense of it so altered that the whole meaning of the memorial was perverted to the use of the Valley Railroad Company and was exhibited in Congress as an endorsement of the recent effort to obtain an exclusive grant of land for that road. The timely appearance of Gov. Farwell at Washington, put the matter in its true light, which contributed to the defeat of the Bill.—*Watertown Register.*

Legislative Matters.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

Madison, March 30, 1854,

The memorial for Land Grants passed the Senate at its evening session yesterday, by a vote of 18 to 5, and passed *precisely in the form* in which it passed the Assembly. The passage by the Assembly of, and concurrence by the Senate in, the amendment of Mr. McCracken—the vote in the former being 70 to 2—is a full and wholesome endorsement of Gov. Farwell's letter, read by Mr. Letcher in Congress.

The Senate also passed a bill abolishing all of the laws relative to Engrant Agents—and the vote, being a majority of the whole Senate, is not likely to be reversed. There seems a probability that the bill will pass the House, and it is also probable that the Senate will refuse to pass the Quebec Agency. There is a curious history of this subject to be told some of these days.

In the afternoon the Equalization Bill was under consideration, and was passed. It makes the State officers the Board of Equalization—to meet in the summer or early in the fall, and look over the abstracts of the assessment rolls, and equalize the State tax among the counties. It is contemplated to raise a State tax of $225,000, I believe, and this, with the $20,000 bank tax, and sundry other items, is thought sufficient to meet the expenses for the year; but I doubt.

In Assembly, a resolution by Mr. Hull, intended for expediting business, was rejected, such an intention being altogether foreign to the majority; Messrs. Zimmermann and Schantz had leave of absence.

Numerous bills were presented, and among them I note the following; State Printers' Bill—appropriation of $7 500,00 for State Prison—ditto to S. Park Coon of some $700, *for costs in foreclosing Canal Land Mortgages*—ditto of $1,200 for postage of State Officers—authorizing Mil. & Miss. Railroad to build a branch from Black Earth Creek to Sauk Prairie—and one repealing the law of last winter, which cut down the salaries of the Comptroller and Treasurer of Milwaukee.

Several bills were passed, under suspension of the rules—among them the following;

Concerning Treasurers—(directing county treasurers to keep accounts of tax money received, &c.)

Concerning City Clerk of Racine.

Charter of Sheboygan Falls Village.

Several accounts were presented in reports from committees, among them one of the widow of Prosper M. Bird, for the board of hands employed in building the Capitol in 1836.

A message from the Senate announced that that body had passed the Assembly bill relative to the dredging of Milwaukee river, &c., with an amendment cutting off the section making a different arrangement as to street commissioners certificates from that in the charter. The Assembly agreed to the amendment, so the bill is passed.

The bill paying Messrs. Arnold and Knowlton $1000 each as counsel of Judge Hubbell *passed* as the first among the bills on the third reading. The list of the bills *passed* under this head is as follows;

For the protection of logs in the Wisconsin river.

Relative to duties of county Treasurers.

Amending game laws.

Providing for a State Lunatic Asylum—$15,000 *appropriated*.

Two for state roads.

The joint Resolutions of Mr. Hale, *endorsing the National Administration*, were tabled on motion of Mr. Hull, *a democrat*, by a vote of 41 to 25—*sixteen of the 25 being whigs and free soilers*, who wished to get another vote. The national administration ought to feel flattered by the compliment!

The bill dividing the 2d Judicial Circuit—taking off Dane and Jefferson, in order to make, with Sauk and Columbia, the 9th Circuit, was *passed*, after a warm debate, and a reconsideration refused.

The Swamp Land bill came up again, there being a substitute pending. To this substitute Mr. Head offered an amendment by way of substitute. A long debate ensued on various motions to amend, appeals, motions to postpone indefinitely, to table &c. the votes being very close on some of these motions.

Finally, Mr. Head's substitute was read. It proposed to make over the lands in the several counties to those counties, under various conditions and restrictions.

The other substitute was then read. This was a document produced by a committee of which, I think, Mr. Knowlton was chairman, and was the bill cooked up, roasted and basted, and ready to be swallowed, if it would go down,—and indeed, it seemed likely enough to go down for a while. It simply—*very* simply—proposed to give public notice that the Governor will receive proposals for the purchase of the swamp lands by individuals or companies, no one to bid less than $100,000 for the whole 3 or 4,000,000 acres (*modest, that!*) and the Governor to accept such proposition as he thinks best, and make over to the purchaser a title to the lands!

Mr. Orton went into this bill with an unction, for a little while, and the vote was finally taken on a motion of Mr. Bartlett to strike out the enacting clause of the original bill, and the whole thing was *killed* by a vote of 35 to 32, and a reconsideration refused by 31 to 37.

In the afternoon, the bill creating the office of "Bank Register"—a substitute for the one creating that of Deputy Comptroller—was *passed*.—Also the one from Senate abolishing all the County Courts of the State except in Milwaukee. Some amendment was made, which carries it back to the Senate for concurrence.

Mr. Orton obtained leave to correct the printed journal of yesterday in some particulars—among others placing Mr. McCracken's proviso to the land grant memorial on the record, as had not been done.

The Assembly went into Committee on the Rock River Canal Co., bill, and were at it, in a sharp fight for a couple hours, the debate being generally on the merits of the bill, a motion pending to report the bill back for indefinite postponement, made by Mr. Lake. Messrs. Hull, Knowlton, Horn, and Davis supported the bill at greater or less length, and with earnestness. Mr. Donaldson's name was inserted as Commissioner in the place of David Agry—leaving the three Messrs. KNOWLTON, DONALDSON, and S. O. PAINE, of Grant.

On the other side, Mr. Lake and Mr. Remington spoke briefly, and Messrs. Orton and Gary made able speeches, the latter going into a history of the Company and the Grant as matters of history, and in relation to the bill before the House. His speech showed that he had studied the subject carefully, and furnished the House with valuable information, requisite for a vote. The motion to indefinitely postpone prevailed in committee, and the House carried it by ayes and noes, 43 to 23, as follows:

Ayes: Allen, Atwater, Baker, Bartlett, Bell, Colley, Crawford, Desmoyer, Donaldson, Estabrook, Fox, Gray, Hagerty, Hale, Harrington, Head, Joiner, Ketchum, Lake, Lavis, Mathes, Matts, McCormick, McCracken, McIndoe, Mitchell, Nichols, Noggle, Orton, Parkinson, Purple, Reed, Rich, Spafford, Spaulding, J. N. Thomas, Tracy, Topliff, Webster, Whedon, Worthington, Wright—43.

Noes; Barnes, Barney, Beecher, Davis, Earnest, Eastis, Gibson, Hadley, Hull, Jeffrey, Knowlton, Lees, Norton, O'Neil, Reinhardt, Scott, John Smith, Tallmadge, M. J. Thomas, Tobin, West, Horn—23.

A re-consideration was lost—so that subject was disposed of.

A bill coming from the Senate to pay the impeachment Senators $2,50 per day each, was, on motion of Mr. Knowlton, referred to a select committee.

An attempt was next made to take up, under a suspension of the rules, the Emigrant Agency Bill, so as to concur in the Senate's amendments thereto—which amendments contemplate the death of all except the Quebec Agency; but there were not quite two thirds—the vote being 41 to 23.

The House then adjourned to 7½ P. M. and the litter leaves them in Committee of the Whole at work on the file, a slaughtering going on among the bills of doubtful expediency.

Mr. Knowlton has just offered a new liquor bill as a substitute for the old House bill.

THE RESCUE CASE.

Examination of John A. Messenger, on a charge of Aiding in the Rescue of Joshua Glover, a Fugitive Slave, from Missouri.

BEFORE WINFIELD SMITH, ESQ., U. S. COMMISSIONER.

J. R. SHARPSTEIN, Esq., District Attorney, for the Prosecution.

J. H. PAINE, Esq., Counsel for the Defense.

THIRD DAY—April 1st.

At 10 A. M., the parties appeared before the Commissioner.

Mr. Messenger addressed the court as counsel for the deft., his brother, stating that he believed the introduction of testimony would be of no avail, and would make no difference with the court—that the ordinary and well settled rules of evidence had not been adopted on this examination; that the murmurings of the crowd had been taken and received as evidence to convict the defendant of an enormous crime. That one of the witnesses had committed bold and corrupt perjury, and that the defense not being aware that such evidence would be introduced, were not prepared to rebut it but should reserve their defense until they were put upon trial, before a jury of peers. That it was thought that in cases of this kind the defendant was possessed of some rights, he had thought so before, but he knew there were minds so constituted, that they might become so debased under certain influences and under certain bearings and appliances, as to reject every particle of evidence that would tend for the defense, and to chuckle at everything that would tend to a conviction. He should leave the comments on the evidence to the senior counsel in the case.

Mr. Paine asked the district atty to make his opening remarks.

Mr. Sharpstein read from the Law Reporter, from a decision made by Justice Nelson, in one of the Jerry Rescue trials, in the case of the U. S. *vs.* Enoch Reed; and stated that his object in reading it was to show that the warrant upon which the Deputy U. S. Marshal had made the arrest of Glover, when introduced and admitted here, was sufficient evidence for the purposes of this examinations, to show that Glover was a fugitive, as such was arrested, when taken in connection with the evidence of the officer on the stand. But, that on a former examination, the counsel for the defense, had claimed that the warrant alone was not sufficient evidence to bring the case within the section of the fugitive law under which the defendant had been arrested. To do away with this objection, he had called for the conversations between Glover and his master, which had taken place in presence of the U. S. officer, and in these conversations Glover had admitted he was the slave of Garland and that he had run away from him. He had believed before, on the other examination and did as yet, that the evidence of the officer alone, that he had arrested and held as a fugitive the negro Glover, was of itself sufficient evidence for the purpose of the present examination and of the other also, but as the counsel had claimed the contrary he had introduced, stronger evidence. He should make no further remarks unless, he heard something from the other counsel, worth replying to.

Mr. Paine stated that he had no intention of making any remarks, feeling satisfied that nothing his client could bring into court, would resist the mass of stuff in the shape of testimony which had been introduced to convict the defendant. But his client was not satisfied that he should allow the evidence to pass by without comment, and in obedience to the commands of his client he should comment upon it. The sages of the law, had thrown around the criminal certain safeguards, and in the prosecution of a defendant under a criminal statute, it was a fixed principle that nothing must be taken by implication—no liberality of construction to be allowed—the prosecution to be held to the strictest rules of law—the government was entitled to the letter of the law, but nothing more, and that if the District Attorney replied to this part of his argument, he would be was satisfied not take issue upon these statements, but that all criminal statutes must receive a strict construction, except the damnable Fugitive Slave law. And what was the nature of the evidence against his client—masses of street gossip and heaps of gutter scandal, picked up by the malice of the prosecution, had been brought in here, and admitted as evidence to convict the defendant of having violated the Fugitive Slave Law.

The offense charged is with having aided and abetted in the rescue of a fegitive from labor and services; not one arrested and held as such. He must be a fugitive and it must be clearly shown that he was a fugitive; it could not be taken by implication on any way.

Mr. Paine continued at some length, remarking, "but, sir! the prosecution, not satisfied with having held my friend, Mr. Booth, to bail, have secretly introduced here, additional evidence against him, and that, sir, was honey to the lips of the prosecuting attorney. It was a sweet morsel, which he rolled under his tongue, and licked it with joy. Sir, the people have made an issue with the U. S. officers, and I am bold to say, and if it be treason let them make the most of it, that the people will abide that issue. The love of freedom has struck deep into their hearts; you saw in those five or three thousand people assembled at the court house on that day a spirit you cannot conquer; you cannot drown it. Sir, I say here, as my friend said, rather than the rights of the people should be trampled on—rather than all the liberties of our country should be lost—rather than the rights of all of us, as citizens of that country should be struck down by the slave power, backed up by the United States officers, I say, sir, although I'm opposed to hanging—that I'd rather see every United States officer, and slave owner in the country strung up between the heavens and the earth, as a terror to evil doers. Sir, I've made these remarks not expecting they would make any impression upon the court, believing myself that the court was identified with the prosecution. Sir, I noticed the court made use of the word "we," and that after the witnesses left the stand, or were left for me by the prosecution, the court put questions to the witnesses, for evidence to sustain the prosecution. I will now leave the responsibility of the case with the court.

(We have not undertaken to give a full report of Mr. Paine's argument. We have omitted the whole of his severe strictures on the evidence of the witness. Jennings; believing they were made in the heat of argument and not meant in cooler moments. Be that as it may; we should not be justified in giving such grave charges against an individual, holding a respectable station in society to the public, to be read by thousands as read by us, with no other basis but the assertion of counsel. Rep.)

Mr. Paine was followed by Mr. Sharpstein in a few remarks, who denied any malice, whatever, against the defendant. His acquaintance with the defendant had been but short, but it was sufficient to create a favorable impression in regard to him. He had no malice against any one; he was simply doing his duty—the difference between the counsel and himself was, that counsel was afraid of the laws, he was afraid of those who violated the law counsel was arraigning the laws of his country; he was prosecuting those who had violated the laws. He claimed that the ownership was proved and that the case was fairly made out against the defendant; that identity of the fugitive who had been rescued with the colored man in defendants buggy was clearly established, and asked the court to hold the defendant to bail.

The court in a brief summing up, stated that no could not for a moment have any hesitation, of what his duty was. The defendant would be required to give bail in the sum of $2000 for his appearance at court. The witnesses for the prosecution were ordered to remain, and the defendant left to seek his bail. During the afternoon the bail was given, Mr. Whitnal becoming surety.

MRS. HAMMER who was found guilty of ill-treating her child at the late quarter sessions of Philadelphia.—was sentenced on the 18th inst., to six months imprisonment by Judge Kelley. Among other cruelties, it was alleged that she applied a red-hot iron to his naked flesh, leaving a terrible scar.

"At the announcement of the sentence, Mrs. Hammer swooned, and Mr. Hammer, (who was tried and accuitted on the same charge,) laboring under great feeling, while the tears ran rapidly down his cheeks, asked permission to say a few words which was granted, when he made a strong appeal that she should not be sent to prison, as he feared her reason would be entirely overthrown, or her life sacrificed. Judge Kelley, however expressed his determination to punish her, when Hammer asked that the court remand the child to his custody, Judge Kelley replied: "No. Had your own admissions upon the former hearing, that you took the child out of bed while asleep, and whipping him with a shoe, been given in evidence, the jury would have convicted you also.

In that event, I would have sent you to the same prison for the same length of time, but not to the same cell." Mrs. Hammer was immediately conveyed to prison.

A MYSTERY ON THE SEA.—Capt. Haskell, of the ship *Independence*, at Valparaiso, from San Francisco, reports that on the 21st of November, lat. 15 deg. 40 min. S., lon. 121 deg. 15 min. W., he saw a raft with two decayed bodies on it.—The raft was made of spars from a vessel, and there were yards and beams and eight water casks. It was well secured in every way, having a mast but no sail; a small piece of white cloth was tied up for a signal on the mast; then there was a brass binnacle and compass, a tin pump, trunk, half barrel dried fish, and some empty barrels.—What a tale of hardship and suffering is probably associated with that raft—a tale which will only be known when the sea gives up its dead.

The house of William Flanders, in Londonderry, N. H., was burned on Tuesday afternoon last and his three young children perished in the flames.

For the Daily Sentinel.

"For Rent"—"To Let."

Messrs. Editors:

I am not an old bachelor, nor a bachelor at all; nevertheless it makes me *crowl all over*, to see pasted up on the fronts of shops, stores and houses, *For Rent* or *To Rent*, commonly met with in Milwaukie (spell the name of our City, Milwaukie, as it should be, instead of Milwaukee, as now commonly but improperly done,) about this season of the year. *For Rent!* forsooth, as though the lessors expected and desired that the tenants should pay them *rent*, without any reference or care as to the accommodations and consideration therefor! *Rent—Rent*, seems to be the sole consideration uppermost in their minds, and the benefits and accommodation of the poor devils who are desired and expected to pay it, nothing.

Well, if this really be so, do, for decency sake, disguise it a little, my dear landlord, and use language that has some meaning to it, and prove that it is not necessary to be an illiteral fool because you are rich enough to have buildings to let. Say, therefore, on your bills, TO LET—and people from the East, and of decent education, will be able to understand you. If a man should say that he had *rented* a house, every man who knows enough to spell correctly the name of our city, and many other more ignorant, would understand what the word properly and legally imports, viz, that he had *hired* a house and not that he had *let* one.

They might as well and with equal propriety say, and post up *Money for Interest*, or *Money for Rent*, or *Horses and Carriages for* RENT, as *Houses for Rent*. As long, therefore, my dear Landlords, as no one is expected to be green enough to pay you *rent* without an equivalent for some benefits and accommodations, leased, let, or demised to him, just then say "This House To LET," and you will not be the laughing stock for your ignorance to people of information and sense, and you will obtain just as much, or more *rent*, when it is observed that you are willing to grant a *benefit and accommodation* for the rent you ask, by a contract of *letting*, as though you should publish to the world, as you now do that the lease and accommodation to the tenant is nothing with you, but the rent—the dear rent, everything.

THE PUBLIC LANDS.

[FROM OUR OWN CORRESPONDENT.]

Washington, March 22.

The Committee on Public Lands have prepared a report against the bill from the Senate for the Relief of the Indigent Insane, commonly known as Miss Dix's "the Million Bill, because it has been urged upon Congress for many years past by that benevolent lady, and proposes to donate to the several States and Territories ten million acres of public lands for the support of institutions for the relief of the Insane. The chief grounds of opposition assumed by the Committee, *are the unconstitutionality of the proposed grants*, and the danger of opening a door for a class of applications which will include a vast number of unworthy objects. The following enumeration of the objects for which grants of land are sought for in petitions now before the Committee, is presented in the Report. There are applications,

For the establishment of Normal Schools in each State.

For the endowment of Schools in which to educate young women as teachers,

For the support of Common Schools.

For the support of Deaf and Dumb and Lunatic Asylums.

For donations to all incorporated Colleges and Universities in the United States.

For Juvenile Reform Schools in cities.

For all unsold lands for Educational purposes, in the respective States.

For unconditional grants to all States.

For lands in support of Protestant University.

For lands in aid of Private Military School.

For the sale of the site of Fort Atkinson in aid of Common Schools in the neighborhood.

For grant to a private individual to enable him to keep his Iron Foundry for the public good!

For grants of Bounty Lands to all deceased and living soldiers, their heirs and representatives, which would require three hundred millions of acres—a gratuity as large as all the public lands surveyed since the government was formed.

To this schedule the Committee might have added applications in various shapes for 100,000,000 acres for the Pacific Railroad, and about 150,000,000 acres for minor railroads projects.

The constitutional objection to Miss Dix's bill presents no difficulties at all, and is thoroughly refuted in a minority report by Mr. Bennett of the same Committee. Mr. Bennett shows that grants of lands have been made at every period since the establishment of the Government for almost every describable purpose to States, Territories, corporations, and individuals. These grants exceed the whole amount sold. Thus, up to the 30th June, 1853, there had been donated to thirteen new States and four Territories.

	Acres.
For certain public purposes	123,062,451
Total amount of sales up to same date	168,167,356
Excess of grants over sales	19,565, 095
Grants for military services	24, 341,980
Total excess of grants over sales	44,767,075

These statistics apply exclusively to the New States, the old States having received nothing.

The minority report states that the majority of the Committee have reported or are prepared to report grants for railroad purposes to the amount of 15,000,000 acres. Mr. Bennett denies every plea advanced in support of the constitutionality and expediency of these grants, unless the same be admitted as applicable to the Bill for the relief of the insane. The ensuing statements comprise a history of the most successful of these grants which will surprise many of the warmest friends of the system. The grants of lands to the Illinois Central Railroad were

	Acres.
In Illinois	2,595,959
In Mississippi	737,150
In Alabama	990,822
Total	3,721,931
Reserved to be offered at double price.	$2,50 per acre
In Illinois	1,023,921
In Mississippi	255, 455
In Alabama	167,015
Total	1,651,574

The land granted, amounts at Government price to $4,629,639; from July 1st, 1852, to December 30th, 1853 one year and three months, were sold of the reserved lands 224,000 acres, yielding $610,000 not one-seventh part of the minimum value of the lands granted for the road—and this account does not include the amount paid for extraordinary expenses incident to the system. Mr. Bennett concludes that no more than one-third of the reserved sections along these lines of road built upon Government grants, will ever be sold above the present minimum.—*N. Y. Courier.*

Progress of the Nebraska Bill.

Correspondence of the N. Y. Tribune.

Washington, Saturday, March 25, 1854.

Nebraska, "scotched but not killed," writhes in agony. Occasionally it raises its head as if coming to life and then sinks down again. It is difficult to tell which damage it the most, friends or foes. The speech of Breckinridge in its favor is not unlikely to be one of its severest blows.—His attack on Cutting will be made to recoil on him with great effect. It is said that large sums of money were raised among the New York Hards and the peculiar friends of Cutting to secure Breckinridge's election to the seat he now holds.

The anti-Nebraska men feel more and more confident of defeating the bill. But it is not to be disguised that they have fearful odds against them. The recent vote shows that there are ninety-five men who are willing to adopt any means to pass the bill. These members are all decided and *ultra* in favor of the measure. The one hundred and eleven men who voted for the reference confessedly embrace a number who on certain conditions will go with the ninety-five.—And then how many the Administration can induce by fear or favor to join them is yet to be seen. Besides the absentees are decidedly against us. These facts show what an uncertain battle the friends of freedom have before them. Nevertheless they are in good heart, and with the countenance of the people and the blessing of Heaven, they hope to triumph.

The prospects of the Homestead and the Pacific Railroad bills are enveloped in the Nebraska fog. Aside from the influences of Douglas bill both of those great measures stand a fair chance of passing. The same is true of the Gadsden Treaty, although I think it is losing ground of late. There are a great many wheels within wheels connected with this treaty, so that its fate is at least doubtful. The Kitchen Cabinet, with Sidney Webster at its head, among a variety of cliques, are more or less interested in its ratifications and the result. There there are the Gerays versus Sloos, and the Sloos versus Garays. Altogether it is getting to be of very doubtful issue.

DANIEL RESIGNED.—*The Express* has a letter from a Paris correspondent to the effect that Jno. M. Daniel, American Charge d'Affaires at the Court of Turin, has resigned his office, owing no doubt to the unpleasantness of his situation, after the famous letter about "Courts stinking of garlic," and "Diplomats with heads as empty as their titles."—*N. Y. Tribune.*

"Valley Road Slanders."

Since it has turned out that the bill granting land to the Valley Rail Road, has *not* passed, but is in fact defeated, it becomes necessary to ask what influence has been brought to bear, to defeat it.

Our Valley Road friends allledge that it has been brought about by "slanders" put in circulation by its enemies. Now for one, altho' a friend of the road, we are not prepared to believe any thing of this kind. We can see many good and very strong arguments which have been brought to bear in this matter, In the first place, the *principle*, which almost every man is ready to concede, is, in itself all wrong, has had its full weight against it. In the second place, the company proposing to receive this donation, were, more than one year ago, charged with committing frauds which ought to make the cheek of honesty to tingle with shame. These charges were brought by responsible parties in New York city, and published to the world through such mediums as the New York Times, Journal of Commerce, and other papers of decided character and standing, papers too, which could have no interest whatever, in s peaking against the road or company, any further than their action was tending to injure the reputation of the country abroad. The exposures made, had the inevitable tendency to block the games, the consequence was, that operations on the road stopped and no exhibit has ever been made by the company which went, in the least, to refute the charges.—In other words the company rested quietly under those charges, thus virtually admitting their truth. Instead of making a fair open handed exhibit like every other Rail Road company in the State this company have sought, rather to hide their doings, and strictly so as to prevent any knowledge of their true standing: and at the same time heed-wink Congress into a stupendous grant of land, by which the ruined credit (a credit ruined by their own recklessness) of the company might be restored. To secure this, Mr. Smith lays before Congress one of the most transparently fallacious statements that could well be imagined,—it was, in fact as much a fraud upon truth and common honesty as was the alledged fraud upon the English capitalists. To back up this fraud, a memorial passed by our State Legislature was procured from the files and *altered* so as to suit their own designs and laid before Congress as the expressed will of the Legislature of the State, thus adding the crime of forgery to fraud.

The following letter from the associate editor of the New York Mirror is somewhat to the point altho' there are evidently some improper estimates as to the ultimate importance of the proposed road. Yet it shows, conclusively, what sort of a reputation these men have had, and still have, at the east. We repeat again what we have before said, that the fact of this plague spot resting upon us is, and has been doing not only this place but the entire State vast injury abroad; but to the letter.—*Fond du Lac Herald.*

Tall Corn.

We grow "tall corn" in America. The world is beginning to find it out. Every year brings it more and more home to the perceptive and digestive faculties of all civilized humanity. Like all great truths, it did not gain credit at once.—True, everybody sees it here with his own eyes, but not so on the other side of the water. The first accounts of the productiveness of our Western prairies were read by the Buckinghamshire farmer with about as much respect as the fish stories of the Sailor Sinbad. It took even the highest dignitaries of the land a long while to get fairly up to a level with the actual fact. Even at this day there is an ear of corn in the British Museum which enjoys a very "distinguished consideration" as a curiosity. It divides attention, we do not say equally but certainly fractionally, with the Nineveh Bull and the great Koohinoor. It is a perfect marvel to our good cousin John Bull; and yet it has but a very simple history, and it is not a very extraordinary ear of corn after all. It reached its present distinction something in this wise:

In the month of January, 1847, at a certain dinner party in London, at which Lord John Russel, Lord Morpeth, and many other distinguished men were present, the conversation turned upon the Irish famine; and the remark was made by Lord John, that he rejoiced that so good a substitute for the native breadstuff had been found as Indian corn. Turning to Mr. Bates, the American partner in the house of Baring Brothers, his Lordship went on to say, "Why, Bates, some of the cobs have *twelve* or *fourteen* rows of grain on them." Mr. Bates coolly replied; "Yes, my lord, I have seen from *twenty* to *twenty-four* rows on a cob" "That is a rank Yankee-ism" was the pleasant retort of the Premier, and the whole company shouted in approval. The burst of incredulous merriment over, Mr. Bates bought his peace by a wager of a dinner for the company all round that he could produce such an ear.—"Done," exclaimed Lord John, and the bet was clinched.

The dinner passed off, Mr. Bates returned home but not entirely at ease. He had done a strange thing; for the first time in his life he had made an engagement he was not absolutely certain of his ability to fulfil. He had misgivings that he had rashly pledged the honor of his country. It had been long since he had looked upon an American crib; and however patiently he winnowed the *corn*-ucopia of his memory, he found that the cobs of his early days had gone glimmering through the lapse of time, among the things that were, and were now so far off that he couldn't count the rows. He was, as Plautus would say, *reductus ad invitas*—in Yankee parlance, "hard up."—But fortune favors the brave. It happened that a friend of ours dropped in the next day at the counting-house of the Barings'. Mr. Bates, with brightening face, hailed him, and made known his difficulty. "You are safe," was the response; "if I live to get home you shall have even a bigger ear than you have promised."

Our friend G——soon returned, and straightway wrote to Messrs. Rogers & Reynolds of Lafayette, Ind., telling the story, and begging them, for the honor of the country, to come to the rescue, and turn the tables on Lord John, showing him what Yankees could do. In the July following Mr. G—— received by express from Lafayette a nicely arranged box containing six ears of horse-tooth corn, two of which had twenty-nine rows, two *thirty-one*, and two THIRTY-TWO. The box was forthwith addressed to "J. Bates, Esq., care of Messrs. Baring, Bro. & Co., ship, by Black Ball Line, care of the Liverpool House." It reached its destination, and Lord John Russell, first Lord of the Treasury, third son of the late Duke of Bedford, by the second daughter of George Viscount Torrington, and lineal descendant of Lord William Russel, the martyr of liberty, "*acknowledged the corn.*" The dinner was won Joshua Bates did not perpetrate a "Yankeeism" and the British Museum holds the trophy. *Vive la Republique!—N. Y. Courier.*

THE PROGRESS OF MEDICAL SCIENCE.—We have just examined a new and marked evidence of this caption, in a compound from the east, prepared by Dr. J. C. Ayer, of Lowell, Mass. Dr. Ayer is a deep Chemist, and combines the constituents of this remedy in strict accordance with chemical principles. There is nothing secret about it, but the whole composition and process is freely published and made known to the Medical Profession. We have the Formula with full particulars, in the Doctor's own hand writing, and must in sincerity say of it and the medicine, that they show a skill and intrinsic merit which is worthy of all commendation.—The Medicine has in diseases of the throat and lungs, been fully tested by all the Medical Colleges and most of our eminent Medical men, and is as far as I know highly applauded by them.

While therefore, I am most heartily opposed to the recommendation of all secret remedies, I can cordially and in my capacity of Physician, properly recommend the Cherry Pectoral to all.—*Rochester Banner.*

☞ The Louisville *Courier* of the 24th, has the following:

STOP HER.—The City Marshal on yesterday, received the following terse and pointed telegraphic dispatch from a stern parent up the country—one H.W. Randells, of Shelby:

"My daughter, Lucinda Randells, ran off on the cars this morning with a man named Isaac Cook, for the purpose of getting married. She is only 16 years of age. Stop her."

As requested, Mr. White stopped the enterprising young lady, and gave her over to the unrelenting old folks. Better luck next time.

IMPROVEMENTS.—Never, since our acquaintance with Fond du Lac, has it exhibited more signsof improvement. New buildings are springing up as if by magnic, in all parts of the city, and more preparations are being made for others Streets are being laid out, and opened—sidewalks constructed in all parts, and everything betokening the most active prosperity. The people seem determined to make Fond du Lac a large city, in spite of the scare-crows about the the failure of certain Rail Road enterprises.—*Fond du Lac Herald.*

SALES OF REAL ESTATE.—The Winnebago Hotel with Eighty feet of land fronting on Ferry (Main) St. and running back 245 feet to the next street was sold on Saturday last to Eighme & Kennedy and Geo. H. Reed for $4,000.

A lot of land lying on the Neenah road half a mile north of City line containing Eighty acres, unimproved, was sold to the same parties for $1,200.

A lot of land containing Eighty acres with improvements, lying on the Neenah road one and a half miles from City line was sold a few days since to G. W. Washburn for $2,100.—*Oshkosh Courier.*

GREEN PEAS AND STRAWBERRIES.—The steamship Florida brought to this City on Tuesday between thirty and forty bushels of green peas, and six champagne baskets of strawberries. They were raised at Savannah and Florida. The season is said to have been favorable for fruit at the South, and next steamer from Savannah will doubtless bring large quantities of peas, strawberries, &c.—*N. Y. Tribune.*

UNDER FALSE PRETENCES AT THE POST OFFICE.—A boy about fifteen years of age, named Charles Owen was arrested on Saturday afternoon by officers Conover and Beck and lodged in jail, on a charge of obtaining, under false pretences, letters from the U. S. Post Office. The boy was examined before U. S. Commissioner Smith in the afternoon of Saturday and held to bail in the sum of two thousand dollars to appear at the next term of the U. S. Court to be held at Madison. The Commissioner, at the time the bail was fixed, stated that if any person should feel disposed to bail the defendant, he would reduce the amount of the bail. The boy was committed to jail.

There are six sizes of Blacksmiths, Coppersmiths, &c. Forges, and five sizes of Jewelers, Dentists and Chemist's Forges, and five sizes of Bellows for under-ground construction—heats the iron in the quickest manner—the wind escapes from the hot-air chamber through several holes in the Tuyer cap, which, being under the fire, prevents the Tuyer from getting filled up with coal and ashes, as it will where there is but one opening. For out-door work and for safety in-doors, this Forge has great advantages over others, having also Bellows by which this Forge can be blown by hand, and for safety and many purposes in-doors, (particularly for Jewelers, Dentists and for chemical operations) all the fumes from charcoal and acids being conducted through the smoke-pipe, so that no fumes are entirely out of the way; it is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed.

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same,) and for emigration to new countries, ever offered to the public, and are successfully used by most of the Steamers and also by the U. S. Army and Navy.

PATENT MEDICINES.

LIVER COMPLAINT,

JAUNDICE, DYSPEPSIA, CHRONIC OR NERVOUS DEBILITY, DISEASE OF THE KIDNEYS,

AND

all diseases arising from a Disordered Liver or Stomach, such as Constipation, Inward Piles, Fullness or Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the sight, Fever and Dull Pain in the Head DEFICIENCY OF PERSPIRATION, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden flushes of Heat, Burning in the Flesh, Constant Imagining of Evil, and great Depression of Spirits, CAN BE EFFECTUALLY CURED BY DR. HOOFLAND'S CELEBRATED GERMAN

BITTERS,

Prepared by Dr. C. M. Jackson,

AT THE GERMAN MEDICINE STORE,

120 Arch Street, Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures in all parts of this country after skillful physicians had failed, abundantly prove.

These Bitters are worthy the attention of invalids. As a gentle yet powerful stimulant to the digestive organs, they are without a rival, and are highly recommended by many of the most eminent members of the faculty, as an article of much efficiency in cases of female weakness. As such is the case, it would advise all mothers to obtain a bottle, and thus save them much needless suffering. Persons of a full habit, subject to costiveness will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

MORE EVIDENCE.

The Hon. C. D. Hurlbut, Mayor of the City of Camden N. J., says:

"HOOFLAND'S GERMAN BITTERS.—We have seen many testimonies of this medicine, and the source from which the cause induced us to make inquiry respecting its merits. From inquiry we were persuaded to use it, and must say we found it specific in its action upon diseases of the liver and digestive organs, and the powerful influence it exerts upon the vous prostration is really surprising. It calms and strengthens and thereby bringing them into a state of repose, making sleep refreshing.

"If this medicine was more generally used, we are satisfied there would be less sickness, as from the statements we have seen of its effects in many cases of long standing, more than half of which was visible, to precisely the same it was when I was twenty years old, with the same healthy and glossy appearance of hair. I have no hesitation in recommending it to my friends and the public generally, believing that it used according to directions they will not be disappointed. Yours, very respectfully, N. B. HOLMAN.

BLESSBURG, June 10, 1853.

Prof. Wood—Dear Sir: Sixty years requires but little to give a statement of the effects of your wonderful Restorative upon me. I observed by your circular, that I have now used three bottles of it; and although my hair when I commenced it was as silver white (my age is sixty-four) in one month's time it had resumed precisely its original color and so perfect that my friends all thought I looked twenty years younger than usual, and sincerely knew what to make of it that they considered it a great improvement. I continued them it was but the result of an portion of yours called Hair Restorative. I will also state that I was much troubled with dandruff and itching; and although my hair had fallen off until I was somewhat bald, I now have as fine a head of hair, both in quality and quantity, as I ever had, when I was south, and quite as abundant. It is proper for me to state that I commenced its use in August last, and used none since January. I have no doubt therefore but what the length of time I took your medicine before I recommenced it as the most wonderful discovery of the age in which we live. S. M. RANDALL.

Extract of a letter from B. Thorn, Sheriff of La Salle county, Illinois:

OTTAWA, Ill., August 21, 1853.

Prof. O. J. Wood—Dear Sir: Yours of June 21st, accompanied by a bottle of your Hair Restorative, was received. I very soon thereafter commenced using it, and it has entirely restored my hair to its natural youthful color.—There is considerable inquiry for the article here, and it is Very respectfully yours, R. THORN.

HIGHLY IPMORT ANT ANNOUNCEMENT.

To the Afflicted Everywhere,

DR. A. L. ADAMS' LIVER BALSAM COMES GREETING!

DR. A. L. ADAMS' NEW CURE FOR DISEASE is awakening the inquiry in the minds of all who read it. How is it that Americans have been so long and so lavishly immured in darkness and ignorance on the subject of disease.

DR. A. A. ADAMS' LIVER BALSAM.

The great Panacea of Disease is offered to the afflicted of the States and Territories for the entire cure of Liver Complaints in all stages, Bilious Fever, Ague and Fever, Chronic Long Fever, Dropsical Affections, Coughs, Consumption, Asthma, Influenza, Bowel Complaints, Diarrhœa, Dysentery, Rheumatism, Piles, Scrofula, Salt Rheum, Dyspepsia, General Debility, Nervousness, Costiveness, Indigestion, Female Complaints, &c.

Dr. A. L. Adams' Liver Balsam now sustains the highest reputation of any remedy before the public and has proved to the most skeptical, beyond a shadow of doubt that it is the only reliable medicine ever discovered for the diseases specified for the permanent cure of the above disease. The most skeptical have become its most sanguine votaries, and pronounces the Liver Balsam to be the only reliable harbinger of health to the afflicted everywhere.

Testimonials come up from every track it has made, swollen with expressions of gratitude for the relief received by its use. And, in submission to this, the Liver Balsam is recommended to those suffering under the iron grasp of the monster disease, and at once procure one bottle of Dr. A. L. Adams' Liver Balsam.

The reader's attention is called to the perusal of the Medical Circular, which can be obtained of every agent throughout the United States, giving a clear epitome of the causes and cure of disease; also, of certificates of those who have tested its unparalleled ascendency over the diseases to which we are all subject.
